

Traveling to Geisinger for world-class heart care.

Geisinger's cardiac specialists rank among the finest physicians in their field. When patients travel to Geisinger for cardiac treatment, they will have some of the brightest minds in healthcare performing leading-edge procedures. In addition, Geisinger's specially-trained nurse navigators and patient liaisons assure the level of service and attention patients and their travel companions receive matches the quality of care their physician team provides.

The moment patients walk in the door of Geisinger's beautiful Hospital for Advanced Medicine (HfAM), they know they're in a place that delivers world-class heart care. Geisinger's HfAM offers state-of-the-art technology for diagnostic, inpatient and outpatient cardiac care. Each room in the dedicated cardiac unit is private and has continuous (24/7) monitoring by our unique TeleICU.

The patient's travel companion can stay at our on-campus hotel that features a full-service restaurant and a convenient shuttle to the HfAM.

Patients take comfort in knowing that Geisinger is nationally recognized for developing one of the world's foremost approaches to evidence-based care, the innovative ProvenCare® program. Our physicians engineered ProvenCare® to ensure patients benefit from nationally recognized standards resulting in our patients receiving the highest level of care.
