## BETTER TRANSPLANT OUTCOMES FOR A BETTER LIFE

Intermountain Medical Center located in Salt Lake City, Utah, has a comprehensive transplant program, with a history of consistently achieving some of the best clinical outcomes in the country. Intermountain's team of experts has pioneered advancements in the field of transplantation. The focus is on treating each patient with sensitivity to their unique physical and emotional needs.

### HEART TRANSPLANT

- Offers the latest treatments for systolic and diastolic heart failure
- Provides mechanical circulatory support, utilizing both temporary and permanent Ventricular Assist Devices to support failing hearts
- Performed more than 1,000 heart transplants, a milestone achieved by few other programs in the country
- Survival rates are among the best in the United States
- Physicians are international experts in preventing allograft rejection

### SOLID ORGAN TRANSPLANT— KIDNEY, LIVER AND PANCREAS

- Pioneering transplant program that offers outstanding outcomes and shorter wait times than the national average
- UNOS designated transplant centers
- Leader in A2 donor organs transplanted into non A/AB recipients since 1990

### BONE MARROW TRANSPLANT

- More than 600 adult patients have received transplants for a variety of malignant and non-malignant diseases since 1978
